Rodolfo Resende
CEO

We are still on our journey towards Sustainability.

We keep sustainability in our minds everyday and that's why it's become one of our daily goals. Thanks to our team's restless work we are making amazing progress, and throughout 2020, we overcame our goals and 66% of our collection is now produced with recycled plastic. However, we keep on challenging ourselves to reduce our environmental impact and stay on track promoting actions that highlight our **ECO-FRIENDLY** mindset of a sustainable production. 100% of our production waste is recycled and optimised to make new products and we keep reducing our packaging waste too. To do so, we reduced single use wraps on our products and gave up on plastic labels so now, all our labels are produced on recycled paper. This represents our journey through sustainability and we are always trying to go further. That's why we keep on working to produce all our collection with recycled material.

A sustentabilidade continua presente nas nossas mentes diariamente e, por essa razão, tornou-se num dos nossos objectivos diários. Graças ao trabalho incansável da nossa equipa, temos feito progressos incríveis e, ao longo de 2020, superámos as nossas expectativas e 66% da nossa coleção é, agora, produzida com plástico reciclado. No entanto, continuamos a desafiar-nos para reduzir o nosso impacto ambiental e manter-nos no caminho certo, promovendo ações que realcem a nossa mentalidade **ECO-FRIENDLY** como a produção sustentável. 100% do desperdício da nossa produção é reciclado e otimizado para fazer novos produtos e, relativamente ao embalamento, continuamos na redução do desperdício nas embalagens. Para isso, reduzimos o invólucros de plástico de utilização única que envolviam os nossos produtos e desistimos das etiquetas de plástico por isso, agora, todas as nossas etiquetas são produzidas em papel reciclado. Isto representa a nossa jornada pela sustentabilidade sendo a nossa vontade conseguir ir mais longe. É por essa razão que continuamos a trabalhar para que toda a nossa coleção possa ser produzida com material reciclado.

*La sostenibilidad sigue presente en nuestra mente a diario y, por ello, se ha convertido en uno de nuestros objetivos diarios. Gracias al trabajo incansable de nuestro equipo, hemos logrado avances increíbles y, a lo largo de 2020, hemos superado nuestras expectativas y el 66% de nuestra colección se produce con plástico reciclado. Sin embargo, seguimos desafiándonos para reducir nuestro impacto ambiental y mantener el rumbo, promoviendo acciones que mejoren nuestra mentalidad **ECO-FRIENDLY** como producción sostenible. El 100% de nuestros residuos de producción se reciclan y optimizan para la fabricación de nuevos productos y seguimos reduciendo los residuos de nuestros envases. Para ello, redujimos los embalajes de plástico de un solo uso que rodeaban nuestros productos y renunciamos a las etiquetas de plástico, por lo que ahora todas nuestras etiquetas están hechas de papel reciclado. Esto representa nuestro camino hacia la sostenibilidad y nuestro deseo es poder ir más allá. Por eso seguimos trabajando para que toda nuestra colección sea producida con material reciclado.*

La durabilité est toujours présente dans notre esprit et c'est pourquoi elle est devenue l'un de nos objectifs quotidiens. Grâce au travail inlassable de notre équipe, nous avons fait des progrès incroyables et, en 2020, nous avons dépassé nos attentes et 66 % de notre collection est produite avec du plastique recyclé. Cependant, nous continuons à nous mettre au défi de réduire notre impact sur l'environnement et à rester sur la bonne voie en promouvant des actions qui soulignent notre état d'esprit **ECO-FRIENDLY**, comme la production durable. 100% des déchets issus de notre production sont recyclés et optimisés pour fabriquer de nouveaux produits et, en ce qui concerne les emballages, nous continuons à réduire les déchets d'emballage. A cette fin, nous avons réduit l'emballage plastique à usage unique de nos produits et renoncé aux étiquettes en plastique, de sorte que toutes nos étiquettes sont désormais produites sur du papier recyclé. Ceci représente notre voyage vers la durabilité et nous voulons aller plus loin. C'est pourquoi nous continuons à travailler pour que toute notre collection puisse être produite avec des matériaux recyclés.

*Wir behalten Nachhaltigkeit jeden Tag im Kopf und deshalb wurde sie zu einem unserer täglichen Ziele. Dank der unruhigen Arbeit unseres Teams machen wir erstaunliche Fortschritte und haben im Laufe des Jahres 2020 unsere Erwartungen übertroffen: 66% unserer Kollektion wird aus recyceltem Kunststoff hergestellt. Wir fordern uns jedoch weiterhin heraus, unsere Umweltbelastung zu verringern und Maßnahmen zu fördern, die unsere **ECO-FRIENDLY** Denkweise wie eine nachhaltige Produktion unterstreichen. 100% unserer Produktionsabfälle werden recycelt und für die Herstellung neuer Produkte optimiert. Außerdem reduzieren wir unseren Verpackungsabfall weiter. Zu diesem Zweck haben wir die Einwegverpackungen unserer Produkte reduziert und die Kunststoffetiketten entsorgt. Alle unsere Etiketten werden jetzt aus Recyclingpapier hergestellt. Dies ist unser Weg durch die Nachhaltigkeit und wir versuchen immer weiter zu gehen. Deshalb arbeiten wir weiter daran, unsere gesamte Kollektion aus recyceltem Material herzustellen.*

The perfect symbiosis between design and natural resources brings with it the touch and colours of the earth, the nature inspired textures and the feeling of being surrounded by it. Designed with Nature to get even closer to it, Havana molds the earth into design.

A perfeita simbiose entre o design e os recursos naturais traz consigo o toque e as cores da terra, as texturas inspiradas na natureza e a sensação de estar envolvido por ela. Desenhado com a Natureza para trazer um pedaço dela na sua essência, o Havana molda a terra em design.

We are passionate about Orchids so we designed a pot that empowers this beautiful plant by providing them the best conditions and contributing to it's well-being. With a raised bottom, this pot allows roots to keep away from the water so the orchids can grow healthy and look even more beautiful. Moreover, it exists in three transparent colors that allows the contact between the roots and the sunlight.

Somos apaixonados por orquídeas, por isso desenhamos um vaso que empodera estas maravilhosas flores dando-lhes as melhores condições e contribuindo para o seu bem-estar. Com um fundo elevado, este vaso permite que as raízes se mantenham afastadas da água para que as orquídeas possam crescer saudáveis e ainda mais bonitas. Além disso, existe em três cores transparentes que permitem o contacto das raízes com a luz do sol.

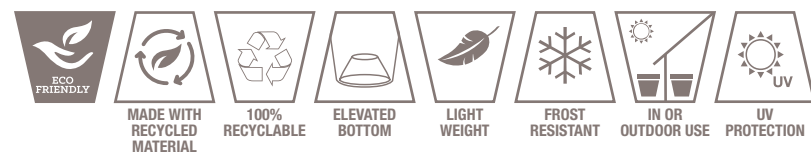

Nos apasionan las orquídeas, así que hemos diseñado una maceta que potencia estas hermosas flores proporcionándoles las mejores condiciones y contribuyendo a su bienestar. Con un fondo levantado, esta maceta permite que las raíces se mantengan alejadas del agua para que las orquídeas crezcan sanas y se vean aún más hermosas. Además, existe en tres colores transparentes que permiten el contacto entre las raíces y la luz del sol.

Nous sommes passionnés par les orchidées, c'est pourquoi nous avons conçu un pot qui donne du pouvoir à ces merveilleuses fleurs en leur offrant les meilleures conditions et en contribuant à leur bien-être. Avec un fond surélevé, ce pot permet aux racines de rester à l'écart de l'eau pour que les orchidées puissent pousser sainement et être encore plus belles. De plus, il est disponible en trois couleurs transparentes qui permettent aux racines d'entrer en contact avec la lumière du soleil.

Wir haben eine Leidenschaft für Orchideen, deshalb haben wir einen Topf entworfen, der diese schönen Blumen stärkt, ihnen die besten Bedingungen bietet und zu ihrem Wohlbefinden beiträgt. Mit einem angehobenen Boden können die Wurzeln in diesem Topf vom Wasser ferngehalten werden, sodass Orchideen gesund wachsen und noch schöner aussehen können. Darüber hinaus gibt es drei transparente Farben, die den Kontakt zwischen den Wurzeln und dem Sonnenlicht ermöglichen.

Siena

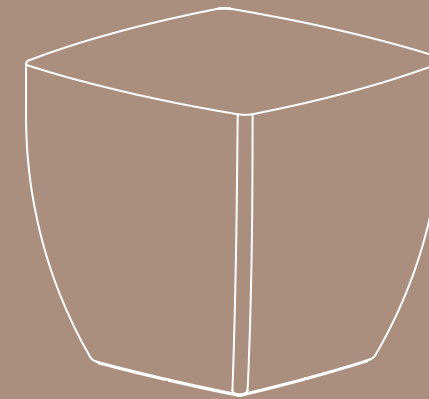

Although designed with a square shape, Sienas rounded edges gives this range an organic soft look that fits perfectly in any space. Equipped with wheels on the bigger pot sizes and with the possibility to have a self watering system, this range is a smart addition to any instore collection.

Apesar de ter sido desenhado com uma forma quadrada, as suas arestas arredondadas dão a esta gama um aspecto suave e orgânico que se enquadra na perfeição em qualquer ambiente. Equipado com rodas nos tamanhos maiores e com a possibilidade de ter um sistema de auto-irrigação, esta gama é uma adição inteligente a qualquer coleção.

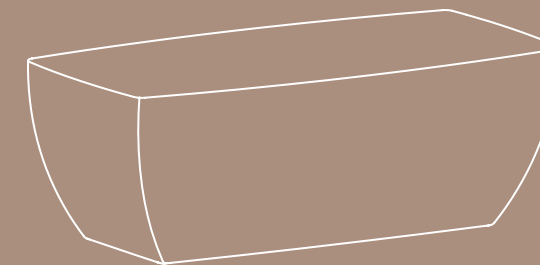

Aunque diseñada con una forma cuadrada, los bordes redondeados de la maceta Siena le dan a esta gama un aspecto orgánico suave que encaja perfectamente en cualquier espacio. Equipada con ruedas en los tamaños de maceta más grandes y con la posibilidad de tener un sistema de auto-riego, esta gama es una adición inteligente a cualquier colección de tienda.

Bien que conçue avec une forme carrée, ses bords arrondis donnent à cette gamme un aspect lisse et organique qui s'intègre parfaitement à tout environnement. Equipée de roues pour la plus grande taille. Avec la possibilité d'avoir un système d'auto-arrosage, cette gamme est un complément intelligent à toute collection.

Obwohl mit einer quadratischen Form gestaltet, verleihen die abgerundeten Kanten von Sienas dem Sortiment einen organischen, weichen Look, der perfekt in jeden Raum passt. Ausgestattet mit Rädern für die größeren Topfgrößen und mit der Möglichkeit, ein Selbstbewässerungssystem zu haben, ist diese Serie eine clevere Ergänzung für jedes Instore-Sortiment.

Metal Supports

This collection complements and adds versatility to Artevasi's big plastic collection. In order to guarantee maximum safety, the Metalwork has been developed with a system that guarantees stability and robustness when the pot or plant box is combined with it. Thus, new doors open and the possibilities of marrying together the plastic and iron ranges are endless.

Esta coleção surge para complementar e acrescentar versatilidade à vasta coleção de plástico da Artevasi. De forma a garantir a máxima segurança, estes ferros de suporte foram desenvolvidos com um sistema que garante a estabilidade e a robustez quando combinados com um vaso ou floreira. Assim, novas portas se abrem e as possibilidades de combinação entre plástico e ferros são intermináveis.

Esta colección parece complementar y añadir versatilidad a la gran colección de plástico de Artevasi. Con el fin de garantizar la máxima seguridad, la metalistería ha sido desarrollada con un sistema que garantiza la estabilidad y la robustez cuando se combina con la maceta o la jardinera. Así, se abren nuevas puertas y las posibilidades de unir las gamas de plástico y hierro son infinitas.

Cette collection est conçue pour compléter et ajouter de la polyvalence à la vaste collection plastique d'Artevasi. Afin de garantir une sécurité maximale, ces supports en fer ont été développés avec un système qui assure la stabilité et la robustesse lorsqu'ils sont associés à un pot ou à une jardinière. Ainsi, de nouvelles portes s'ouvrent et les possibilités de combinaison entre le plastique et les fers sont infinies.

Diese Kollektion scheint die große Plastikkollektion von Artevasi zu ergänzen und vielseitiger zu gestalten. Um maximale Sicherheit zu gewährleisten, wurde die Metallverarbeitung mit einem System entwickelt, das Stabilität und Robustheit garantiert, wenn der Topf oder die Pflanzenbox damit kombiniert wird. Dadurch öffnen sich neue Türen und die Möglichkeiten, die Kunststoff- und Eisenbereiche miteinander zu verbinden, sind endlos.
